## Coronavirus School settings

## Please remember – To avoid spread of infection, always:

Minimise contact and mixing – try to keep 2m apart	Wash hands frequently (for at least 20 seconds)
Clean surfaces regularly e.g desks, handles, switches	Avoid touching mouth, nose and eyes
What to do if someone develops	What to do if someone else
COVID symptoms?	develops COVID symptoms within
<b>COVID symptoms?</b> - Send home immediately to self-	develops COVID symptoms within 14 days (ie a cluster in same group?)
