

# Dental Health Promotion

## Free Online Training

**Are you a School Nurse, Social Worker, Reception Teacher, Health Visitor, Nursery, Early Years Staff or Childminder**

*At primary schools across Waltham Forest 8 children in every class will already have tooth decay. Oral health has never been more important and every practitioner who comes into contact with families should be able to deliver oral health messages with confidence.*

This free online dental health training aims to deliver the following outcomes for practitioners:

- To understand why primary teeth are so important and be able to confidently deliver advice and key messages around oral hygiene routines
- To understand the different factors and causes of tooth decay and how to prevent tooth decay in children

### Training Dates

Saturday 15th May 1-2.30pm  
Tuesday 25th May 1-2.30pm
