

Global Action Plan Clean Air Day- Activities for Schools

- Share information in the school newsletter about air pollution and what people can do protect their health (like walking and cycling to school, and can find out more at <http://www.cleanairhub.org.uk>)
- Hold a 'leave the car at home' action for staff and students with a competition or recognition for those who do
- Hold a Clean Air Day assembly - there are prepared [assembly pack](#) and [assembly videos](#) here
- KS2 to join the live online Freedom to breathe online webinar at 10.00 – 10.50 to learn more about air pollution, their right to clean air and take a simple online action for clean air – [click here](#) to register
KS3+ webinar is on 17 June 2021, at 11.00 – 11.50 – [click here](#) to register
- Do an art project on clean air - there are colouring in sheets in the schools resources (there are curriculum linked lessons plans and activities here [free online school resources](#)) or children could design healthy and unhealthy lungs using handprints.
 - Use the Clean Air Schools Framework to develop their own bespoke action plan (should only take 15 mins to do): <https://www.transform-our-world.org/clean-air-for-schools>
