

Starting School Together Project with Charlie Chit Chat and Peggy Pit Pat

The Aims of the project:

- ✚ Schools and settings embed effective transition practice so that children are ready for and make a smooth transition into school or setting.
- ✚ Early years settings and schools work together to build robust and effective working relationships that support and create seamless and consistent transition processes.
- ✚ Parents will be more engaged with the setting or school as well as their local community.
- ✚ Parents will feel more empowered to support their children to achieve a positive transition to school or into a new setting.
- ✚ The puppets will have a positive impact on children's wellbeing and engagement - as well as their self-confidence and independence.
