Overview

This handbook provides the information needed by Nursery schools in England to complete the School Census Spring Return.

The School Census Spring Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, Pupil Referral Units (PRUs), City Technology Colleges (CTCs) and Academies (including free schools) in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Spring, Summer and Autumn), which collect detailed information about school characteristics and pupil details, e.g. pupil address, free school meals, exclusions, etc. Different data is collected depending on which return is being prepared and your school phase.

A list of items collected from Nursery schools in England for the School Census Spring Return is available in a later section of this handbook (please see *Preparing Data for the School Census Return* on page *6*).

NOTE The contents of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.

Setting SIMS Permissions 5
What Version of SIMS is Required? 6
Preparing Data for the School Census Return 6

Setting SIMS Permissions

The following permissions are applicable to users who deal with returns.

Running the Return

To run the return, you must be a member of one of the following user groups in System Manager:

- Returns Manager
- Returns Operator.

Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. pupil details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see *Where to find More Information about Permissions* on page *5*).

Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS) to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

For more information about the Import Fileset functionality, please refer to the applicable preparation guide. To access the SIMS **Documentation Centre**. Click the **Documentation** button located on the top right-hand side of the SIMS **Home Page**.

Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the Managing SIMS Users, Groups and Databases handbook.

The SIMS Permissions spreadsheet describing the numerous permissions available in SIMS is available on the SIMS 7 Documentation Centre.

What Version of SIMS is Required?

To run the return, you must have the latest SIMS Release installed.

Creating a New School Census Return

Before creating a new School Census return, ensure that all pupil and school information is present and accurate in SIMS.

The **Census Folder** and **Security message for Reports** must be specified before clicking the **New** button to create a new return. A message is displayed if a census folder has not been defined.

The School Census Spring Return collects data for all pupils who are on the register on census day.

It is possible to create more than one return. This enables you to carry out dry runs to determine what data needs to be added or updated. Any unwanted returns can be deleted, providing they have not been authorised (please see *Deleting an Unauthorised Return* on page *49*).

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

NOTE The first time that the **Routines | Statutory Returns | School Census** menu route is selected during each SIMS session, there is a delay while the School Census files are loaded.

When the files are loaded, the **Census Return** browser is displayed.

The **Census Communications** message box includes links to the newsfeed, errors and resolutions document, handbooks, DfE guidance and Support Unit website (if available). Any additional information to help with the completion of the return is also displayed, if applicable.

NOTES

The **Fileset ID** is displayed in the browser header (for information only). The following graphic shows the position for the first release in the 3200 fileset series, where the fileset is obtained from the `SIMS .net` folder. As soon as any further release in the series is imported, the reference to the `SIMS .net` folder is no longer displayed. This is because the fileset data is then obtained from the document server. Instead the import date is displayed adjacent to the **Fileset ID**.

If a post-release consolidated database patch is applied, the patch ID and run date are also displayed in the browser.

Security message for Reports: This report contains sensitive information.

Description	File Name	Census Date	Date Created	Validated	Authorised Date
School Census Spring 2026	8234321_SC1_823LL26_001.UNA	15/01/2026	07/10/2025	07/10/2025	

By default, the **Term** field displays the appropriate term for the selected return, in this instance **Spring 2026**.

2. Ensure that the **Census Folder** is configured correctly and that the required **Security message for Reports** is specified, as described in the following sections.

Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

IMPORTANT Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (https://www.gov.uk/service-manual/technology/securing-your-information). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

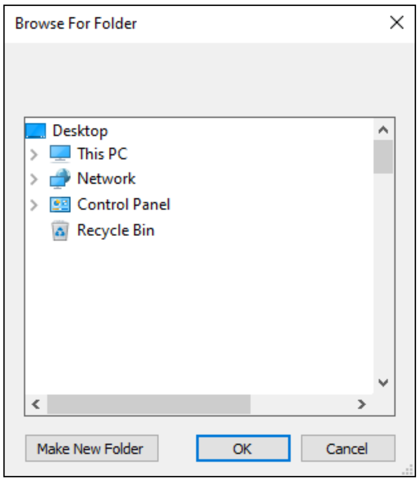
The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr).

1. In the School Workforce Census Folder field, enter the location of the folder where the return files are to be stored.

   Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

   ... *Browse button*



2. Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button, then enter a suitable name for the new folder.

> **IMPORTANT** If you are changing the location of the folder, ensure that authorised personnel only have access to the new folder, as the folder will contain sensitive data. For more information, please see the important note at the beginning of this section.

3. Click the **OK** button.

   A message dialog requests confirmation that you want to continue.
4. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.
5. Ensure that the **Security Message for Reports** is appropriate for your school.

Specifying the Security Message for Reports

The **Security message for Reports** field displays the text that will be included in the header of each report.

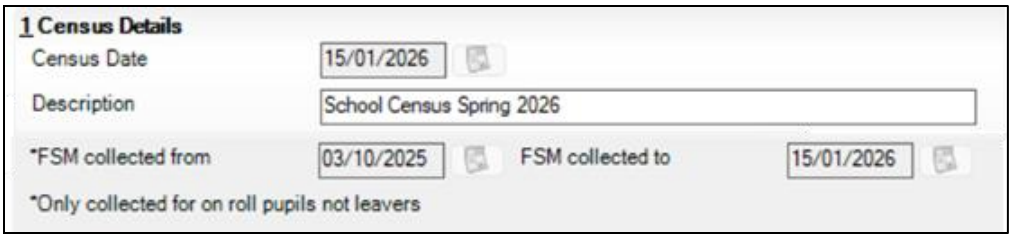
The default text (**This report contains sensitive information**) can be edited, if required. Clicking the **Default Message** button reverts the amended text to the original default text.

When the security message and census folder are specified, a new return can be created. Click the **New** button to display the **Census Return Details** page.

Editing Census Details

The **Census Details** panel displays the following read-only dates:

- The census date is
- FSM (Free School Meal) eligibility.



1 Census Details

Census Date 15/01/2026

Description School Census Spring 2026

*FSM collected from 03/10/2025 FSM collected to 15/01/2026

*Only collected for on roll pupils not leavers

1. By default, the return **Description** is displayed as **School Census [Term] [Year]** but can be edited, if required, e.g. to identify a dry run.

> **WARNING** Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.
>
> A unique description also helps to identify the required return when viewed in the **Census Return for Spring Term** browser and can be particularly useful when creating dry runs or copies of existing returns.

2. Click the **Calculate All Details** button.

Calculating All Details

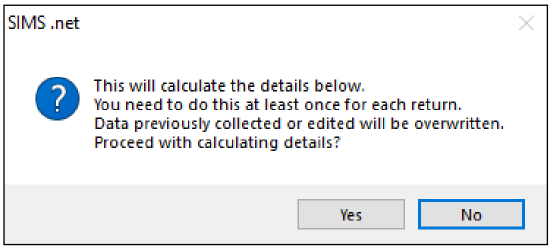
Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

> **IMPORTANT** You must calculate all details at least once to populate the various panels for each return.
>
> Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.

   A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.



SIMS .net

This will calculate the details below.
You need to do this at least once for each return.
Data previously collected or edited will be overwritten.
Proceed with calculating details?

2. Click the **Yes** button to calculate all details.

   At this point, depending on the number of pupils in the school, there might be a short delay while details are calculated.

   The applicable panels on the **Census Return Details** page are then populated with data.

3. The return can be saved at any point by clicking the **Save** button.

Editing School Information

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | School | School Details**). The information displayed might vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended, if necessary, via the **School Detail** button.

  This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

Editing School Childcare Details

School childcare details are collected annually in the School Census Spring return.

Details can be entered via **Focus | School | School Details**, enabling the information to be maintained at any time throughout the year.

Additional information can be added or existing data edited by clicking the **Edit** button. This provides a direct link to the **School Details** page.

If no childcare information is recorded, a validation error is triggered when the return is run.

Calculated childcare information can be edited, if required.

Managing Early Years Data

The early years data collected in the School Census is used to determine the amount of the dedicated schools grant (DSG) allocation provided to local authorities to fund their early years providers.

More information about the early years national funding formula (allocations and guidance) is available on the GOV.UK website.

The **Early Years panel** consists of three grids:

- Early Years
- Early Years Pupil Premium Receipt
- 2 Year Old Basis for Funding.

Early Years data is collected from all schools that have early years pupil/students on-roll on census day. The following items are collected:

- Hours at Setting
- Funded Hours
- Disability Access Fund
- Eligibility Code
- Extended Funded Hours
- Expanded Funded Hours.

Funded Hours and Hours at Setting

Funded universal free entitlement hours are the total number of free childcare hours that a child receives. All three and four year old pupils are eligible for 15 hours funded childcare a week. Advice about the eligibility of two year old children for funded childcare can be found on the DfE website (https://www.gov.uk/help-with-childcare-costs/free-childcare-2-year-olds).

Hours at Setting include funded free entitlement hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

Disability Access Fund

The Disability Access Fund (DAF) is payable as a lump sum once a year and awarded to children from 9 months to 4 years old who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA)

  and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupils who are in receipt of the fund on census day.

Additional information about the Disability Access Fund is available via the DfE website (https://www.gov.uk/education/early-years-funding).

Extended Funded Hours and Eligibility Code

Extended Funded Hours are the number of hours that a child can receive in addition to the initial 15 funded hours. Extended Funded Hours are applicable to three- and four-year-old pupils only.

In contrast to the universal entitlement (which only has an age criterion), for 30 hours free childcare, parents also need to meet a set of eligibility requirements (i.e. income requirements). A child will be entitled to the additional free hours from the term after both of the following conditions are satisfied: (1) the child has attained the age of three; (2) the child's parent has a current positive determination of eligibility from HMRC i.e. a valid eligibility code.

Parents can check online whether they could be eligible for a range of government childcare offers, including 30 hours, via Childcare Choices or the Childcare Calculator.

The 11-digit Eligibility Code and the number of extended funded hours are collected in this return for the week in which the census day falls.

Expanded Funded Hours are the number of hours that a child can receive up to 30 hours. Expanded Funded Hours are applicable for 9-month to 2-year-old (inclusive) pupils with working parents who hold a valid eligibility code.

Extended Funded Hours information provided by the DfE can be found on their website (https://www.gov.uk/government/publications/30-hours-free-childcare-la-and-early-years-provider-guide).

Recording Early Years

The required data can be recorded:

- via the **Edit** button in the **Early Years** panel
- via **Tools | Statutory Returns Tools | Update Early Years - Update Early Years** page. The data in the **Early Years** panel must be refreshed by clicking the **Recalculate** button after using the Update Early Years routine.

If data has been recorded previously, the values are displayed in the read-only **Early Years** panel. Only cohorts applicable to your school are displayed.

1. In the **Early Years** panel, click the **Edit** button to display a message informing you that data has been brought forward from the previous census.
2. Click the **OK** button to display the **Update Early Years** page. By default, the current term is displayed in the **Census** panel.

> **TIP** To view the data recorded for a previous term (in the current academic year), select the required **Term** from the drop-down list.

3. To add or edit the number of **Hours at Setting**, **Funded Hours, Extended Funded Hours or Expanded Hours** for an individual pupil/student, select the required criteria in the **Pupils View** panel.

   In the **Pupils** panel, highlight the required pupil, click the applicable cell and then enter the required number of hours.

   > **IMPORTANT** Values for **Funded Hours**, **Hours at Setting**, **Extended Funded Hours** and **Expanded Funded Hours** should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.
   >
   > If the value entered is within the range accepted by SIMS but is higher than what the DfE expects, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

4. If most of the pupils are receiving the same number of hours, the following method can be used to populate the column quickly:
   a. In the **Pupils View** panel, select the required year group from the Year Taught In (**YTI**) drop-down list. The selected pupils only are displayed in the **Pupils** panel.
   b. Right-click in the **Pupils** panel, then select **Select All** from the drop-down list.
   c. Click in one of the highlighted cells of the column you wish to populate, i.e. **Hours at Setting**, **Funded Hours**, **Extended Funded Hours or Expanded Funded Hours**, then enter the number of hours that is applicable to most pupils.

      This number is then entered automatically for all the selected pupils.

   d. Click to the right of the grid to deselect all.
   e. Edit the entry for each pupil who is receiving a different number of hours. This is achieved by highlighting the required pupil, clicking the associated **Hours at Setting**, **Funded Hours**, **Extended Funded Hours or Expanded Funded Hours** cell (as applicable) then entering the required number.

5. Indicate whether the pupils are in receipt of the **Disability Access Fund**. Click the applicable cell, then select **Yes** or **No** from the drop-down list.
6. Enter the 11-digit **Eligibility Code** in the applicable cell, if in receipt of extended funded hours.

> **IMPORTANT** Each pupil must have a different Eligibility code. Ensure that all 11 digits are entered.

7. Click the **Save** button.

   If there are any pupils for whom zero hours have been recorded, a message is displayed. Click the **Yes** button to save the data or the **No** button to return to the **Update Hours** page, where the number of hours can be entered.
8. Click the **OK** button to return to the **Census Return Details** page, where the updated hours are displayed.

> **IMPORTANT**
> If, while completing the return, any of the following processes are performed, click the **Recalculate** button (located at the top right-hand side of the **Early Years** panel) to ensure that the up-to-date data is displayed:
>
> - any information is updated via **Tools | Statutory Return Tools | Update Early Years**
> - a new pupil is added in SIMS
> - a pupil's date of birth is amended.
>
> Please note that when information is updated via the **Edit** button, the **Early Years** panel is refreshed automatically.

Using the Status to determine if Hours at Setting or Funded Hours are recorded

1. On the **Census Return Details** page, click the **Edit** button (located in the **Early Years** panel) to display the **Update Early Years** page.
2. In the **Pupils View** panel, ensure that the required **Age at** date, **YTI** and **Reg** group are selected and then select **No Hours at Setting** (or **No Funded Hours**) from the **Status** drop-down list.

   Only pupils who do not have an entry for **Hours at Setting** (or **Funded Hours**) are displayed.
3. Enter the required values for these pupils as described previously.
4. Click the **Save** button.

Editing Early Years Pupil Premium Receipt

The data collected in the Spring School Census provides the DfE with information about Early Years Pupil Premium funding allocated to schools.

Information is required regarding children 9 months to four years old who attend school and receive Early Years Pupil Premium (EYPP). Data is required for the following pupils:

- All 9 months to three-year-old pupils
- Four-year-old pupils (in years E1, E2, N1 and N2 including Nursery schools).

Children are eligible for Early Years Pupil Premium (EYPP) if they are receiving any hours of funded early education and any of the following:

- they meet the benefits-related criteria for Free School Meals

NOTE Meals delivered as part of the universal entitlement are not Free School Meals.

- they are in care
- they have been adopted from care.

The second grid in the **Early Years** panel deals with a pupil's **Early Years Pupil Premium Receipt** only. The pupils displayed in this grid make up a sub-set of the first grid (i.e. relevant three and four year olds).

Franklinson,Alexis	14/11/2023	002138	N2	PM	2	No	Not Eligible

Specify the reason why the pupil is receiving EYPP (if applicable) by clicking the cell adjacent to their name, then selecting the required option from the **Basis for EYPP Eligibility** drop-down list:

- **Not Eligible**
- **Receipt - Economic**

  In receipt through eligibility for economic reasons, i.e. where they are in receipt via eligibility for the benefits-related criteria for FSM.
- **Receipt - Other**

  In receipt through eligibility for other reasons, i.e. where they are in receipt due to eligibility for being in care or due to leaving care through adoption, a special guardianship order or a child arrangement order.

- **Receipt - Economic and Other**

  In receipt through eligibility for both reasons, i.e. where they are in receipt through eligibility for both economic and other reasons.
- **Receipt - Unknown**

  In receipt through eligibility for unknown basis, i.e. where the school knows the child is in receipt of EYPP (due to receiving funding from the local authority) but does not necessarily know the reason why.

WARNING If you **Recalculate** or **Calculated All Details** before saving, your **Basis for EYPP Eligibility** edits are lost.

Managing School Dinners Taken on Census Day

Applicable to schools with pupils in Reception, Year 1 and Year 2

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the local authority. The School Census Spring Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

The **School Dinner Taken** panel displays all pupils in Reception, Year 1 and Year 2 who are on-roll on census day. The options available in the panel enable you to record pupils who have taken a Universal Infant School Meals on census day, so that accurate data can be included in the census.

NOTES The **Reference Date** is provided so that your school can report school dinners taken on an alternative date to census day, if required.

The pupils listed in the **School Dinner Taken** panel are those who are on-roll on census day. Whereas the data calculated via the **Calculate From Attendance** and the **Calculate From Dinner Money** buttons is based on the reference date.

If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both modules are not in use, the applicable **Calculate From** button(s), as displayed in the following graphic, are not displayed but the information can be recorded manually.

❶	By default, the **Reference Date** is set to the census date. If, due to exceptional circumstance, e.g. flooding, pupils were unable to take a school dinner on census day, the reference date can be changed to a date that reflects the situation. However, the reference date must be within the Spring term date range.
❷	Click the required column header to sort the data.
❸	The **Calculate From Attendance** button is displayed only if SIMS Attendance is in use.
❹	The **Calculate from Dinner Money** button is displayed only if SIMS Dinner Money is in use.
❺	When the **Reset** button is clicked all existing ticks are removed from the **School Dinner Taken** column enabling you to start the process again.
❻	The **Total Taken** and **Total Not Taken** provide an indication of whether the number of school dinners taken is correct or whether edits are required.

After the return has been created and validated, the School Dinner Taken detail report can be run to assist with the checking of results.

Using Dinner Money to Calculate School Dinners Taken on Census Day

If SIMS Dinner Money is in use, the Dinner Money data recorded for census day can be used to calculate the number of school dinners taken on census day.

Many users of SIMS Dinner Money also use SIMS Attendance. If this is the case the **Calculate From Attendance** button is also displayed.

However, it is recommended that the Calculate From Dinner Money routine is used in the first instance. This is because the Calculate From Attendance routine looks at all pupils with a present or late attendance mark on census day morning. These pupils could be taking any sort of meal on census day, e.g. going home for lunch, pack lunch brought from home, as well as meals provided by the school. The School Census return is only interested in school meals provided by the school.

SIMS Dinner Money takes into account these different meal types and populates the **School Dinner Taken** column with ticks where meals provided by the school only have been taken.

1. Click the **Calculate From Dinner Money** button.

> **WARNING** Clicking the **Calculate From Dinner Money** button overwrites all existing data in the **School Dinner Taken** panel.

If SIMS detects missing information, the following message is displayed:

Dinner Money information is incomplete. Please ensure that meals are recorded in Dinner Money.

2. Click the **Cancel** button to return to SIMS where the missing information can be entered or the **OK** button to continue.

A tick is entered against each pupil who is receiving any type of meal provided by the school on census day. These meals have a meal type category of **School Provided**, with a description such as hot school meal or school sandwich.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Attendance to Calculate School Dinners Taken on Census Day

The School Census Return only requires information about school meals provided by the school on census day. However, if SIMS Attendance is in use, the attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner.

The information calculated from attendance can be edited to so that school meals provided by the school only are collected in the return.

1. Click the **Calculate From Attendance** button.

> **WARNING** Clicking the **Calculate From Attendance** button overwrites existing data in the **School Dinner Taken** panel.

If missing marks exist, a message is displayed:

Please ensure that registers have been taken. Missing marks have been interpreted as absent and no dinner taken.

2. Click the **Cancel** button to return to SIMS where missing marks can be entered or the **OK** button to continue.

   A tick is entered against each pupil who is marked as present on census day morning (i.e. AM session). It is possible that some of these pupils are not taking meals provided by the school, e.g. they go home for dinner or bring a packed lunch from home. Meals provided by the school only are required for the return.

   Use the **Group By** functionality to group pupils by **Year Taught In**, **Reg Group** or **Enrolment Status**, enabling school dinners taken information to be updated from class lists, etc.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Manual Entry to Record School Dinners Taken on Census Day

If your school is not using SIMS Dinner Money or SIMS Attendance the number of school dinners taken on census day (i.e. meals provided by the school) can be entered manually.

1. Click the **Tick All** button to populate the **School Dinner Taken** column. All pupils are ticked indicating that they received a school dinner on census day.
2. Edit individual records by clicking the applicable **School Dinner Taken** cell to toggle between a tick and blank (no meal taken).

FSM taken excludes the infant pupil universal entitlement (except for pupils in R,1,2 who are eligible for FSM)

Enter the **Number of free school meals taken on census day** by pupils, in any year, who are eligible for Free School Meals.

- Pupils should be included only if they meet the Free School Meals eligibility criteria (i.e. in respect to family income).

Creating and Validating the School Census Return

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data that is unusual or not as expected, e.g. there are no pupils showing as having special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to start the process. There may be a short delay, depending on the number of pupils at your school.

The **Validation Errors Summary** panel header displays the number of errors and queries found when the Create and Validate routine was run. A pupil and error search facility is also available.

The following information is provided to help with the resolution of validation failures:

- **Type** - the type of validation rule.
    - Failure (**F** displayed in red) indicates an error that must be resolved.
    - Query (**Q** displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.
- **Sequence** - the validation error or query number.
- **Message** - the validation error or query message text.
- **Location** - the specific record in SIMS that contains the error or query.
- **Solution** - the SIMS menu route and/or instructions about where/how the error can be corrected or the query checked.

TIP Using the Solution hyperlinks

When the pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the problem can be checked.

A hyperlink is also indicated by a hash symbol (**#**) preceding the **Solution** text.

Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.

To assist in the viewing of errors and queries:

- When the mouse pointer is hovered over a **Message**, **Location** or **Solution**, hover help displays the entire content of that cell.
- The Student Search functionality can be used to display all errors and queries relating to a particular pupil.
    a. Enter all or part of a UPN, pupil's surname or date of birth in the **Student Search** field.
    b. Select the required record from the **Student Search** drop-down list to populate the **Student Search** field.
    c. Click the **Find** button to display the applicable validation records.
- Use the **Errors Search** to display the required error or query you want to view. Select **ALL**, **ERRORS**, **QUERIES** or the required number from the drop-down list. The total number of rows that relate to the selected validation is displayed adjacent to the **Error Search** field.
- By default, when **ALL** is selected from the **Errors Search** drop-down list, the errors are displayed at the top of the list.

  The order of the items in the list can be changed by clicking the appropriate column heading.

  The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures by clicking the **Report** button (located above the **Validation Errors Summary** panel, on the left-hand side). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required.

  The report is saved automatically in the **Census Folder** (specified previously via the census browser). The original report, which was generated when the **Create & Validate** button was clicked is also stored in this folder.

  - Your generated report file name: `Validation Errors Summary.HTML`
  - Original report file name: `<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_ValidationErrorsSummary.HTML`

  For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE All errors must be resolved, and all queries must be investigated.

If at any point you want to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil | Bulk Update**). For more information, please refer to the Managing Pupil/Students handbook.

Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Also included in the report header is the **School Name**, the **Fileset Number**, the **Filename**, the **Report Created** date, and the **XML Version**.

Where a pupil's National Curriculum Year group is different from what their date of birth would suggest, the applicable **YTI** cell is highlighted in yellow.

The reports available for selection may vary depending on your school phase.

Printing a Report from your Web Browser

IMPORTANT Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include, for example, instructions for the destruction of the printed reports.

1. With the generated report displayed in your web browser, select the **Print** option (**Ctrl+P**) to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

Deleting Temporary Web Browser Files

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on your machine, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the device in the temporary directory, where it is not secure.

When this process is performed, all temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.

To clear the cache, open your web browser, then clear the browsing data history. For more information, please refer to the documentation applicable to the web browser you are using.

Producing the Summary Report

The Summary report enables the school staff, who are involved in the return's preparation, to assess the accuracy and completeness of the return data. It should then be passed to the Head Teacher for their review.

NOTE When the return is authorised, the Summary report is automatically generated and displayed in your web browser.

Generating the Summary Report

Click the **Summary** button, located at the top of the **Census Return Details** page, to display the report in your default web browser.

The report is saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. `C:\SCHOOL CENSUS`. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that consists of the following data fields separated by underscores ('_'):

`<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_`
`<SerialNumber>_<name of the report>_.html`

For example: `8202001_SC1_820LL26_001_Summary_Report.html`.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA might request that a copy of the Summary report is signed by the Head Teacher and sent to the LA when the return has been authorised.

Editing an Unauthorised Return

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

IMPORTANT An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct, then click the **Search** button to display any previously created returns. Unauthorised return files can be recognised by their `.UNA` suffix.
3. Double-click the required return. Alternatively, highlight the required return, then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.
5. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
6. Run the detail reports and Summary report and then use the information they provide to assist with resolving errors and queries.
7. Repeat the editing and Create & Validate process again, if necessary.
8. Click the **Save** button.

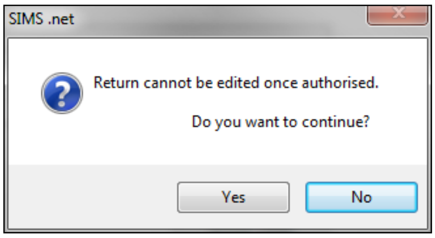
Authorising the Return

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school). If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy or create a new return.

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The content of the Summary report can be useful when reviewing the information.

1. Click the **Authorise** button. A message reminds you that the return cannot be edited once it is authorised.



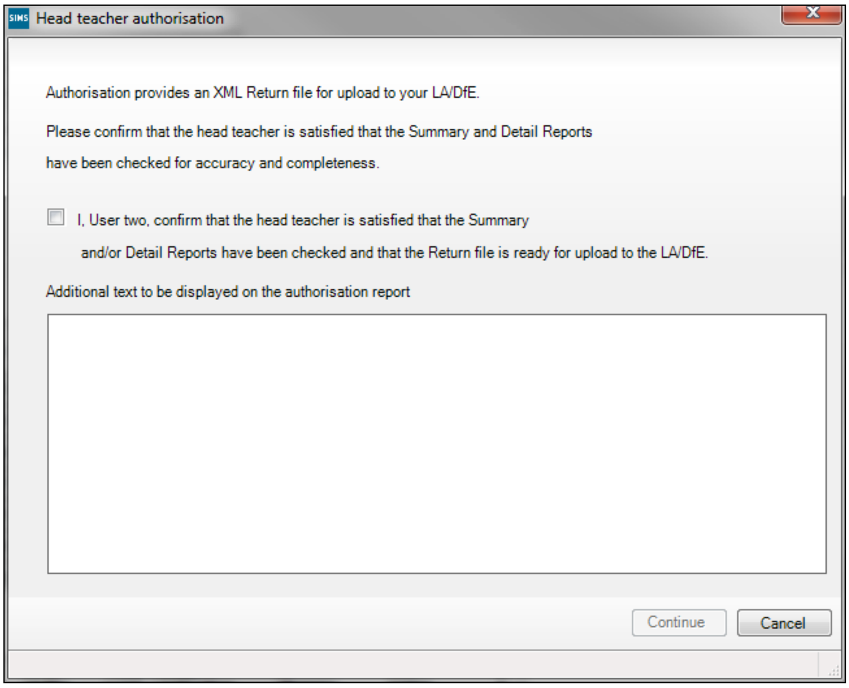
SIMS .net

Return cannot be edited once authorised.

Do you want to continue?

2. Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

   If you choose to continue, the **Head teacher authorisation** dialog is displayed.



Head teacher authorisation

Authorisation provides an XML Return file for upload to your LA/DfE.

Please confirm that the head teacher is satisfied that the Summary and Detail Reports have been checked for accuracy and completeness.

☐ I, User two, confirm that the head teacher is satisfied that the Summary and/or Detail Reports have been checked and that the Return file is ready for upload to the LA/DfE.

Additional text to be displayed on the authorisation report

3. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.

4. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

   When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

5. Click the **Continue** button to authorise the return and prompt the following actions:

   - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
   - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.

   All reports (including detail reports) and the XML file are saved in the **Census Folder**, which was specified previously in the **Census Return for [Term] [Year]** browser.

   These reports can be viewed using the Retrieve Authorised Census Return Files routine (via **Tools | Statutory Return Tools**). This routine also provides the opportunity to download the files to a different folder.

   IMPORTANT The retrieved files contain sensitive information. Ensure that authorised personnel only have access to the download folder.

   For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

   After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

Submitting the Return

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the `.XML` file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

Guidance about how Local Authorities, schools and academies should submit the census data is available on the GOV.UK website (https://www.gov.uk/guidance/school-census).

The authorised return file can be located in the folder previously specified in the **Census Return** browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

IMPORTANT An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.

Retrieving Authorised Census Return Files

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the **Download to** field displays the folder specified previously in the **Census Return** browser. To specify a different folder:
   a. Click the **Select a folder** button (**...**) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

   IMPORTANT Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.

   For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

   b. Click the **OK** button to select or create the folder and then return to the **Retrieve Authorised Return Files for <census name>** page, where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

   The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.
5. The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

   If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

   The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node). Three options are available for selection under this sub-report: **Authorised Date**, **File Name** and **Return Description**.

Copying a Return

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

NOTE Ensure that the return you wish to replicate is not open at the time of copying.

1. Select **Routines | Statutory Returns | School Census** to display the census browser.
2. Click the **Search** button to ensure that the list of returns is displayed.
3. Highlight the file you want to copy then click the **Copy** button.

   A message prompts for confirmation that you wish to make a copy of the selected return.

   IMPORTANT Any values for Early Years, Top-up Funding, Post Looked After Arrangements, Funding and Monitoring, and Attendance (where applicable), will not be copied but will be populated from the current values held in the database.

   The Create & Validate routine must be run to generate a new census file.
4. Click the **Yes** button to make the copy, which is then displayed in the browser as:

   `Copy of <description of selected file>`.
5. To rename the copied return, highlight it, then click the **Open** button to display the **Census Return Details** page.
6. In the **Census Details** panel, edit the **Description** then click the **Save** button.

IMPORTANT A unique description must be used for each return. If duplicate returns are detected, an error message is displayed.

Deleting an Unauthorised Return

During the return process, several copies of the return might be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the incorrect return.

The Delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

IMPORTANT When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.

Any return files that have already been authorised cannot be deleted.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted, then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

   The selected return file and associated reports are removed from the browser and the storage folder.
